Subject: PMTF Catch Update #4, June 13, 2023

Hi Everyone,

The crews were able to cover the full transect today. Below are the catch results. Each index represents catch standardized to what would have been caught from a 200-fathom net fished for one hour.

In a day or two we will populate and include the catch table that is typically attached.

PMTF Stock Composition Status: No change in status.

To receive a summary of daily indexes by text message, text just the four letters “PMTF” to 833-612-1053. Be sure to spell PMTF correctly or it won't work. These shorter text updates go out about the time of, or shortly after the email updates go out.

NOTE: If you subscribed for PMTF text summaries last season but are not receiving them, type “**unstop**” to the same number. That will restart your messages if you used “**stop**” last season. Unless you do this, texting “PMTF” as described above will not work.
