

Port Moller Test Fish Catch Update

Catch Update #20, June 29, 2025

1—PMTF Catch Update Table

2—PMTF Raw Data

3—District C+E over the Season for 2011-2025

Good evening,

The vessels fished apart today but will steam toward each other tonight and begin fishing apart tomorrow as well. We are concerned about weather kicking up and want to be in the position of running for cover while grabbing as many stations as we can along the way.

The Daily Catch Index dipped slightly from yesterday, but not enough to draw meaningful inference.

PMTF Stock Composition Status: The 7th stock composition (June 27-28) will be released shortly.
