

Port Moller Test Fish Catch Update

Catch Update #24, July 3, 2025

1—PMTF Catch Update Table

2—PMTF Raw Data

3—District C+E over the Season for 2011-2025

4—PMTF Daily Index and C+E by District

Good evening,

Fishing conditions tomorrow appear questionable for the outer stations, but the vessels will attempt to cover as many as possible. There was nothing particularly notable about today's Daily Catch Index.

We continue to expect catch and escapement to remain strong on average over the coming week, though day-to-day fluctuations are likely, as is typical.

PMTF Stock Composition Status: The 9th stock composition (July 2-3) should be released tomorrow.
