

Port Moller Test Fish Catch Update

Catch Update #24, July 3, 2026

1—PMTF Catch Update Table

2—PMTF Raw Data

3—C+E by District and Day for 2011-2026

Good evening,

Inclement weather limited coverage of the full transect today. We did manage Stations 6 through 20, though, so a special thank you to our crew for getting it done under rough conditions.

The migration rate at the transect is subsiding. If the inshore trends track what we've seen at Port Moller, C+E should strengthen in the coming days. We'll see how it plays out inshore.

PMTF Stock Composition Status: The stock composition for July 2-3 should be released July 4-5.

[Index by Station](#)

S2: Not fished

S4: Not fished

S6: 132

S8: 42

S10: 2

S12: 2

S14: 0

S16: 0

S18: 2

S20: 4

S22: Not fished

S24: Not fished

Daily Catch Index = 21

Jordan and Scott
