**Subject:** PMTF Catch Update #7, June 16, 2023  
**Attachments:** PMTF Catch Update #7 June 16 2023.pdf; PMTF\_RawData - June 16 2023.pdf

Hi Everyone,

Please find attached today's catch update table, as well as the raw data. The weather kicked up and prevented sampling the center stations. We will wait another day to interpolate for missing stations.

**PMTF Stock Composition Status:** We have enough genetic samples from June 14-16 to estimate the first stock composition. However, weather may prevent processing the samples tonight. An estimate should be released by June 18 (Sunday).

### Index by Station

S2: 0  
S4: 99  
S6: 20

S8-S14: Not fished due to weather

S16: 0  
S18: 0  
S20: 0  
S22: 1

Scott and Jordan

To receive a summary of daily indexes by text message, text just the four letters "PMTF" to 833-612-1053. Be sure to spell PMTF correctly or it won't work. These shorter text updates go out about the time of, or shortly after the email updates go out.

**NOTE:** If you subscribed for PMTF text summaries last season but are not receiving them, type "unstop" to the same number. That will restart your messages if you used "stop" last season. Unless you do this, texting "PMTF" as described above will not work.

**Port Moller Test Fishery: Catch Update #7, 16 July 2023.**

All updates sent by email are also posted online at [www.bbsri.org](http://www.bbsri.org)

Date	Daily Catch Index by Station (Est. catch from the 200 fathom net if it had fished for 1 hr)												Mean Daily Catch Index Avg. Indices Across Stations (Stns 2-22)	Raw catches		Mean Length (mm)

Red index values were estimated with a statistical model built upon the observed pattern across catch indices to date; thus, these values are subject to change as the season progresses.
