

Port Moller Test Fish Catch Update

Catch Update #8, June 17, 2026

[1 – PMTF Catch Update Table](#)

[2 – PMTF Raw Data](#)

Good evening,

Catches slacked off at Stations 8 and 10 today with only light catches at the other stations bringing the Daily Catch Index down. It's too early to know what this means, if anything.

PMTF Stock Composition Status: The vessels will transfer genetics samples tonight to start the first genetics run. The first stock composition (dates June 16–17) may be released tomorrow, though it could be Friday.
