Subject: PMTF Catch Update #20, June 30, 2021--NO FISHING

Inclement weather kept both vessels off of the transect today. Tomorrow and the next few days look promising though.

PMTF Stock Composition Status: Genetic samples from June 28-29 will be in Port Moller tonight. We will know more about flight logistics and the next stock composition estimate's ETA tomorrow.

Scott and Michael

P.S. As a reminder, we send an abridged version up the updates via text message. To sign up to the texts, just text four letters **PMTF** to the following number: **833-612-1053**
