

Port Moller Test Fish Catch Update

Catch Update #1, June 10, 2025

Good Evening Everyone,

The crews got off to a good start on their first day of the season covering Stations 2-12. They should be able to cover the entire transect tomorrow.

We will include the typical catch update table and raw data in a few days once we have more coverage.

PMTF Stock Composition Status: The first PMTF stock composition estimate will be made when enough fish have been caught to do an estimate.

Index by Station

S2: 0

S4: 0

S6: 0

S8: 50

S10: 17

S12: 10

Jordan and Scott

BBSRI Technicians Max Binder and Elijah Lindley sample the first sockeye of the 2025 PMTF Season aboard the R/V Miss Leona.
