

# Port Moller Test Fish Catch Update

## Catch Update #6, June 15, 2025

[PMTF Catch Update Table](#)

[PMTF Raw Data](#)

Good evening,

The crews managed to cover the entire transect today in spite of rough weather, especially at the outside stations. We're hoping the weather improves throughout tomorrow.

**PMTF Stock Composition Status:** Weather on the transect has not been conducive to operating the At Sea Lab over the past three days. The boats will meet up again tomorrow and we will evaluate from there.
