Subject: PMTF Catch Update #3, June 12, 2023

Hi Everyone,

Weather inhibited sampling today, but the two vessels were able to get in a few sets when conditions allowed. The plan for tomorrow will be for the vessels to connect at S12 in the morning and transfer goods back and forth; then, the *Miss Leona* will go north while the *Ocean Cat* fishes south. Weather is looking much better for tomorrow.

PMTF Stock Composition Status: No change in status.

To receive a summary of daily indexes by text message, text just the four letters “**PMTF**” to 833-612-1053. Be sure to spell PMTF correctly or it won't work. These shorter text updates go out about the time of, or shortly after the email updates go out.

NOTE: If you subscribed for PMTF text summaries last season but are not receiving them, type “**unstop**” to the same number. That will restart your messages if you used “**stop**” last season. Unless you do this, texting “PMTF” as described above will not work.
