

Port Moller Test Fish Catch Update

Catch Update #32, July 11, 2026

1—PMTF Catch Update Table

2—PMTF Raw Data

3—District C+E over the Season for 2011-2026

4—2026 PMTF Acknowledgments

Good evening,

Here are today's results. The weather was rough last night and this morning, so we're proud of the data the crew brought in today.

This will be the final update for the 2026 Port Moller Test Fishery. Many people come together to make this project happen, and we greatly appreciate every one of you. A full list of project participants, collaborators, and funders can be found in the Acknowledgments (4) above.

Good luck with the rest of your seasons, everyone, and see you next year!

PMTF Stock Composition Status: The 12th stock composition (July 8-9) was released yesterday. There will be no further stock composition estimates from the test fishery this season.

Index by Station

S2: Not fished

S4: 75

S6: 71

S8: 35

S10: 0

S12-14: Not fished

Daily Catch Index = 18

Jordan and Scott
